A note from Mark...

This is a project which has been in the works for three plus years. Thanks to the three Directors of Idaho Department of corrections (Brent Reinke, Kevin Kempf & Henry Atencio) who supported the concept in their tenure. We believe that returning citizens should have the best support possible and IMSI Hope Community Phase II looks to be a part of that dialogue.

This is the effort of countless volunteers and supporters who have shared prayers and encouragement in the years we have been promoting positive environments for returning citizens.

Please continue to keep us in your prayers.

Who Are We?

The St. Vincent de Paul Reentry Conference is an “interfaith” volunteer group that provide assistance to men and women recently released from prison. We work to foster their spiritual lives while helping them make a successful and positive transition back into the community. Combined with our partners in Ada County, we have served over 2,000 returning citizens since 2013.

Who Do We Serve?

We serve anyone released from incarceration in the first 90 days. If longer than 90 days, we can still help the individual but through the St. Vincent de Paul Home Visit Program.

Our Services

We can often help with:

Rent

Clothing and Items from our Thrift Stores

Transportation (bike or bus pass)

Referrals to other resources to help

This list is not comprehensive as we always help on an individual basis

Prescription Assistance Program

The Prescription Assistance Program assists our neighbors in need obtain medication they are unable to afford. The cost of medication, particularly medication for long term or chronic conditions, can be very expensive. Without health insurance many are unable to get their prescription medication. No one should have to choose between much needed medication and other important necessities of life.

The Prescription Assistance Program knows that many pharmaceutical companies provide medications free of charge to those who meet certain qualifications. Each pharmaceutical company has its own set of criteria that applicants must meet to qualify for their programs.

Since 2001, the Prescription Assistance Program has been here to help navigate through each pharmaceutical company's process for acceptance. We collect the required information from each client and work directly with the Pharmaceutical Companies. Our staff and volunteers work with each client individually always mindful of the privacy each client is entitled to.

Application materials and enrollment in the Prescription Assistance Program are free. We do not charge any fees associated with obtaining, completing or submitting an enrollment application.

Some of the criteria required for this program are:

- Must not have private health insurance or Medicaid;
- Must meet specific financial criteria;
- Must be under the care of a licensed prescriber, such as a physician, nurse practitioner or clinical nurse specialist.

If you, or someone you know, needs the assistance the Prescription Assistance Program offers, you may contact us at (208) 344-9737, Tuesday and Thursday, 10:00 AM to 4:00 PM, Wednesday 8:00 AM to Noon or fill out the Contact Form and submit.

The Spiritual Paradox of Recovery

We cannot do it alone, but yet we must do it by ourselves.

We cannot expect God to do what we are able to do for ourselves, but yet we cannot do it for ourselves without somehow touching a source of courage and strength that exceeds our own abilities. so what is the ultimate spiritual principle. It is a philosophy of balance. It is the ability to recognize and affirm the quality of physical existence, to learn how the physical world operates and operate within the limits of its laws and imperatives.

It is also the willingness to learn to turn within and find a creative spark of life, a connection to God that will allow us to go on and find solutions when none seem available. The balance of these two works, the world of physical reality, and a relationship with Jesus Christ will allow us to forge a strong and powerful sobriety.
